AWARDS & DISTINCTIONS

Literary Contest Winner & Short Story Creation

First place and honorary mentions in regional competitions for short fiction, analytical essays, and imaginative worldbuilding.

📅 2019 – 2021 • Youth Literary Expression & Narrative Contests

Artistic Statement & Vision

Multidisciplinary visual creator and storyteller with strong technical foundations in Industrial Precision Drafting (San Juan Bosco Technical Institute) and academic training in Systems Engineering. I merge geometric rigor, conical perspective, and spatial modeling with artistic expression in digital illustration, 2D/3D animation, and narrative worldbuilding.

Awarded in regional literary and speculative fiction competitions, with multiple honors for academic and creative excellence. Practical background in live audiovisual broadcasting, technical camera and stage management, and international event logistics (2021 Junior Pan American Games).

Areas of Specialization

Technical Drafting & Digital Illustration

Mastery of precision technical drafting, descriptive geometry, axonometric perspective, character concept art, digital inking, and volumetric lighting rendering.

AutoCAD

Clip Studio Paint

Adobe Photoshop

Adobe Illustrator

Graphic Tablets / Display Pen

2D/3D Animation & Motion Graphics

Core animation principles (timing, spacing, anticipation, squash & stretch), 3D polygonal modeling, mechanical rigging, keyframe animation, and motion design composition.

Blender 3D

Adobe After Effects

Adobe Premiere Pro

Audacity

OpenToonz

Screenwriting, Worldbuilding & Literary Creation

Dramatic structuring, character arcs, speculative fiction and sci-fi universe building, short narrative fiction, audiovisual technical scripts, and interactive storytelling.

Academic & Technical Education

Technical Baccalaureate in Industrial Drafting

Instituto Técnico Industrial San Juan Bosco

2014 – 2021

- 7 years of intensive training in geometric drafting, orthographic projections, section cuts, blueprints, and dimensioning.
- Proficiency in traditional drafting tools (rapidographs, T-squares, precision compasses) as well as modern computer-aided CAD.
- Foundations of visual aesthetics, golden ratio, and volumetric composition.

B.S. in Systems Engineering

Universidad Autónoma de Occidente (UAO)

2022 – Present

- Integration of algorithmic logic, computer rendering, 3D graphics, and interactive real-time multimedia systems.
- Development of visual user interfaces and modern interactive frontends.

Audiovisual Production & Events

Audiovisual Technical Assistant & Stage Operations

I Junior Pan American Games Cali 2021

Nov 2021 – Dec 2021

- Operated technical gear for live sports broadcasting, camera monitoring, and audiovisual control desks.
- Installed stage cabling, signal distribution hardware, and large-format digital stadium displays.
- Collaborated with media production teams for real-time live event streaming and coverage.

DIGITAL ILLUSTRATION & CONCEPT ART • COLLECTION OF 18 HIGH-RESOLUTION ARTWORKS • INSTITUTIONAL RECOGNITION

Chronicles of Aethelgard: Concept Art & Worldbuilding

Series of conceptual illustrations merging the discipline of industrial precision drafting with digital concept art to establish an arcanotechnical civilization and its volumetric architecture.

3D ANIMATION & CINEMATIC MODELING • 60 FPS ANIMATION • >40 MOVING MECHANICAL COMPONENTS • 4K RENDERED

Cyber-Genesis: 3D Mech Animation Reel

Cinematic short film centered on the articulation and assembly of a biomechanical exoskeleton. Demonstrates realistic mechanical physics, procedural PBR shading, and dynamic sound design.

LITERARY NARRATIVE & SCREENWRITING • ANTHOLOGY OF 5
COMPLETE STORIES • FIRST PRIZE IN YOUTH SHORT FICTION
CONTEST

The Echo of Gears (Speculative Fiction Stories)

Anthology of short speculative fiction stories and technical film screenplays exploring the intersection of human consciousness, mechanical automation, and social memory in retrofuturistic societies.
